Doc Type: Working Group Document**Title: Revised Proposal to enable the use of Combining Triple Diacritics in Plain Text****Source: Irish NB and German NB****Status: National Body Contribution****Action: For consideration by JTC1/SC2/WG2 and UTC****Date: 2011-06-08****1. Introduction**

In several phonetic and dialectological transcription systems, diacritical marks are found which span over three base characters. Such marks are: conjoining bows above or below the base characters, and a tilde below the base characters.

As there many projects to encode characters for the dialectology of several countries are ongoing, such triple marks are urgently needed. Fig. 3 shows an example from Slovenia, proving that the triple marks are really productive.

The solution presented here follows the principle outlined in the UTC Action Item 120-A87 (see L2/09-225, re L2/09-281 COMBINING TRIPLE INVERTED BREVE and other triple-length combining marks" by Deborah Anderson), where is stated:

" Action Item for Peter Constable (UTC Liaison to WG2): Triple marks should be handled by the mechanism associated with two part diacritics in the Combining Half Marks block at U+FE20."

Note: WG2 N3915 = L2/10-353 "Preliminary Proposal to enable the use of Combining Triple Diacritics in Plain Text" had proposed to encode four triple diacritics as units rather than being composed of blocks:

U+1AFC COMBINING TRIPLE CIRCUMFLEX ABOVE (not addressed in this proposal)

U+1AFD COMBINING TRIPLE INVERTED BREVE ABOVE (also proposed in WG2 N3571)

U+1AFE COMBINING TRIPLE BREVE BELOW

U+1AFF COMBINING TRIPLE TILDE BELOW

It is to be noted that MUFI 3.0 contains a U+F1FC COMBINING TRIPLE BREVE BELOW in its PUA.

First, this solution expands the scope of the already encoded characters:

U+FE20 COMBINING LIGATURE LEFT HALF

U+FE26 COMBINING CONJOINING MACRON

U+FE21 COMBINING LIGATURE RIGHT HALF:

- Any sequence of one base character with U+FE20 applied, one or more base characters each with U+FE26 applied, and one base character with U+FE21 applied, shall yield a ligature bow over the complete sequence of base characters, starting with the one to which U+FE20 is applied, and ending with the one to which U+FE21 is applied.
- Then, the same applies to sequences regarding the proposed U+FE27, U+FE2B, U+FE28, except that the ligature bow goes under the character sequence.
- Likewise, the same applies to sequences regarding the proposed U+FE29, U+FE2B, U+FE2A, except that this yields a tilde under the character sequence.

2. Proposed Characters

U+FE27 COMBINING LIGATURE LEFT HALF BELOW

U+FE28 COMBINING LIGATURE RIGHT HALF BELOW

U+FE29 COMBINING TILDE LEFT HALF BELOW

U+FE2A COMBINING TILDE RIGHT HALF BELOW

U+FE2B COMBINING CONJOINING MACRON BELOW

Properties:

FE27;COMBINING LIGATURE LEFT HALF BELOW;Mn;230;NSM;;;;;N;;;;;
FE28;COMBINING LIGATURE RIGHT HALF BELOW;Mn;230;NSM;;;;;N;;;;;
FE29;COMBINING TILDE LEFT HALF BELOW;Mn;230;NSM;;;;;N;;;;;
FE2A;COMBINING TILDE RIGHT HALF BELOW;Mn;230;NSM;;;;;N;;;;;
FE2B;COMBINING CONJOINING MACRON BELOW;Mn;230;NSM;;;;;N;;;;;

Combining half marks

- FE20 ◌̆ COMBINING LIGATURE LEFT HALF
- FE21 ◌̇ COMBINING LIGATURE RIGHT HALF
→ 0361| ◌̆̇ combining double inverted breve
- FE22 ◌̈̆ COMBINING DOUBLE TILDE LEFT HALF
- FE23 ◌̈̇ COMBINING DOUBLE TILDE RIGHT HALF
→ 0360 ◌̆̈ combining double tilde

Continuous macrons for Coptic

These are used in combinations to represent continuous macrons over a sequence of Coptic letters.

- FE24 ◌̄ COMBINING MACRON LEFT HALF
- FE25 ◌̅ COMBINING MACRON RIGHT HALF
- FE26 ◌̄̅ COMBINING CONJOINING MACRON
→ 0304 ◌̄̅ combining macron
→ 035E ◌̄̅̅ combining double macron

Combining half marks below

- FE27 ◌̆̇ COMBINING LIGATURE LEFT HALF BELOW
- FE28 ◌̇̆ COMBINING LIGATURE RIGHT HALF BELOW
→ 035C ◌̆̇̆ combining double breve below
- FE29 ◌̈̆̇ COMBINING DOUBLE TILDE LEFT HALF BELOW
- FE2A ◌̈̇̆ COMBINING DOUBLE TILDE RIGHT HALF BELOW
- FE2B ◌̄̅̅ COMBINING CONJOINING MACRON BELOW
Used with combining left and right half ligature and double tilde below to extend over more than two characters.

3. Examples and Figures

Fig. 1: The diacritic "combining triple inverted breve" indicates a triphthong (a group of three vowels in one syllable) in the UPA. Example from Ossian Grotenfelt, "Pohjois-Hämeen kielimurteesta", in Suomi II:12 (page 321, rows 22–25).

This figure and its legend is copied from fig. 1 of WG2 N3571 = L2/09-028 "Proposal to encode additional characters for the Uralic Phonetic Alphabet" by Klaas Ruppel, Tero Aalto, Michael Everson, 2009-01-27.

Poikkeus. Kun se pehmenettävän konsonantin pe-
räästä tuleva yksinäinen vokaali on *i*, niin se, konsonantin
pehmettyä, säilyy ja sulaa, muuttuen *e:ksi*, diftongin kanssa
yhteen triftongiksi; esim. *ei tullt voaetuks, puoessa.*

Fig. 2: V. E. Nash-Williams, "The Early Christian Monuments of Wales". Cardiff, 1950: showing bows upon letter sequences of different length, which denote some features of the text, rather than marking special phonetic units with distinctive semantics.

Thanks to Andrew West for providing this example.

271. BARMOUTH (Fig. 182). 'Found buried in the sand twenty feet below high-water mark at latitude 52° 52'' 36 NW. Rough pillar-stone. 75" h. × 14" w. × 9" t. Local Cambrian grit. Latin inscription in three lines reading horizontally: $\overline{\text{AETERN}}[\text{I}(\text{?})] / \text{ET} / \overline{\text{AETERN}}[\text{a}(\text{?})]$, (*The stone of Aeternus and Aeterna* (?)).¹ Roman capitals, lightly cut, with three ligatures, including one of four letters in l. 1. For the name Aeternus cf. Nos. 97, 306. 5th–early 6th century A.D. Inside church, mounted against N. wall of nave at W. end. *AC*, 1932, pp. 105–7 (B. H. St. J. O'Neil); *CIIC*, 414.

Fig. 3: Excerpt from the PUA of the font ZRCola.ttf used for the Obščeslavjanskij ingvističeskij atlas, showing in its PUA several of transcription units using bows on three base letters (at EE0C, EE25...EE28, EE3D).

Thanks to Peter Weiss for providing that font.

**ISO/IEC JTC 1/SC 2/WG 2
PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS
FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646¹**

Please fill all the sections A, B and C below.

Please read Principles and Procedures Document (P & P) from <http://www.dkuug.dk/JTC1/SC2/WG2/docs/principles.html> for guidelines and details before filling this form.

Please ensure you are using the latest Form from <http://www.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html>.

See also <http://www.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html> for latest Roadmaps.

A. Administrative

1. Title: Proposal to enable the use of Combining Triple Diacritics in Plain Text

2. Requester's name: Irish NB + German NB

3. Requester type (Member body/Liaison/Individual contribution): Member Body Contribution

4. Submission date: 2011-06-08

5. Requester's reference (if applicable): _____

6. Choose one of the following:

This is a complete proposal:	<u>Yes</u>
(or) More information will be provided later:	<u>No</u>

B. Technical – General

1. Choose one of the following:

a. This proposal is for a new script (set of characters): No
Proposed name of script: _____

b. The proposal is for addition of character(s) to an existing block: Yes
Name of the existing block: Combining Half Marks

2. Number of characters in proposal: 5

3. Proposed category (select one from below - see section 2.2 of P&P document):

A-Contemporary	<input checked="" type="checkbox"/>	B.1-Specialized (small collection)	<input type="checkbox"/>	B.2-Specialized (large collection)	<input type="checkbox"/>
C-Major extinct	<input type="checkbox"/>	D-Attested extinct	<input type="checkbox"/>	E-Minor extinct	<input type="checkbox"/>
F-Archaic Hieroglyphic or Ideographic	<input type="checkbox"/>	G-Obscure or questionable usage symbols	<input type="checkbox"/>		

4. Is a repertoire including character names provided? Yes

a. If YES, are the names in accordance with the "character naming guidelines" in Annex L of P&P document? Yes

b. Are the character shapes attached in a legible form suitable for review? Yes

5. Fonts related:

a. Who will provide the appropriate computerized font to the Project Editor of 10646 for publishing the standard? Michael Everson

b. Identify the party granting a license for use of the font by the editors (include address, e-mail, ftp-site, etc.): Michael Everson

6. References:

a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided? Yes

b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached? Yes

7. Special encoding issues:

Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)? Yes
Reference to the mechanism of "combining marks" (see text)

8. Additional Information:

Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at <http://www.unicode.org> for such information on other scripts. Also see <http://www.unicode.org/Public/UNIDATA/UCD.html> and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.

¹ Form number: N3702-F (Original 1994-10-14; Revised 1995-01, 1995-04, 1996-04, 1996-08, 1999-03, 2001-05, 2001-09, 2003-11, 2005-01, 2005-09, 2005-10, 2007-03, 2008-05, 2009-11)

C. Technical - Justification

1. Has this proposal for addition of character(s) been submitted before? If YES explain	<i>No</i>
<i>(There was a preliminary proposal: WG2 N3915 = L2/10-353)</i>	
2. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)? If YES, with whom? If YES, available relevant documents:	<i>Yes</i>
<i>See text</i>	
3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included? Reference:	<i>Yes</i>
<i>Scientific use (see text)</i>	
4. The context of use for the proposed characters (type of use; common or rare) Reference:	<i>Common</i>
<i>See text</i>	
5. Are the proposed characters in current use by the user community? If YES, where? Reference:	<i>Yes</i>
<i>See text</i>	
6. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP? If YES, is a rationale provided? If YES, reference:	<i>Yes</i>
<i>Yes</i>	
<i>To keep them in line with related characters</i>	
7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?	<i>Yes</i>
8. Can any of the proposed characters be considered a presentation form of an existing character or character sequence? If YES, is a rationale for its inclusion provided? If YES, reference:	<i>No</i>
9. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters? If YES, is a rationale for its inclusion provided? If YES, reference:	<i>No</i>
10. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character? If YES, is a rationale for its inclusion provided? If YES, reference:	<i>No</i>
11. Does the proposal include use of combining characters and/or use of composite sequences? If YES, is a rationale for such use provided? If YES, reference: Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided? If YES, reference:	<i>Yes</i>
<i>Yes</i>	
<i>See text</i>	
<i>Yes</i>	
<i>See text</i>	
12. Does the proposal contain characters with any special properties such as control function or similar semantics? If YES, describe in detail (include attachment if necessary)	<i>No</i>
13. Does the proposal contain any Ideographic compatibility character(s)? If YES, is the equivalent corresponding unified ideographic character(s) identified? If YES, reference:	<i>No</i>
