

Title: Graphic representation of the Roadmap to the SMP, Plane 1 of the UCS

Source: Ad hoc group on Roadmap

Status: Expert contribution

Date: 2000-03-28

Action: For confirmation by ISO/IEC JTC1/SC2/WG2

Replaces: N2114

The following tables comprise a real-size map of Plane 1, the SMP (Secondary Multilingual Plane) of the UCS (Universal Character Set). To print the HTML document it may be necessary to set the print percentage to 90% as the tables are wider than A4 or US Letter paper. The tables are formatted to use the Times font.

The following conventions are used in the table to help the user identify the status of the proposals here (colours can be seen in the HTML version of this document, <http://www.dkuug.dk/jtc1/sc2/wg2/docs/n2214.html>). The PDF version of this document <http://www.dkuug.dk/jtc1/sc2/wg2/docs/n2214.pdf> is probably more convenient for printing.

- **Bold text** indicates an allocated (i.e. published) character collection (none as yet in Plane 1).
- **(Bold text between parentheses)** indicates scripts which have been accepted for processing toward inclusion in the standard.
- **(Text between parentheses)** indicates scripts for which proposals have been submitted to WG2 or the UTC.
- **¿Text between question marks?** indicates scripts for which detailed proposals have not yet been written.
- **???** in a block indicates that no suggestion has been made regarding the block allocation.

NOTE: With regard to the revision practice employed in this document, when scripts are actually proposed to WG2 or to the UTC, the practice is to "front" them in the zones to which they are tentatively allocated, and to adjust the block size with regard to the allocation proposed.

The size and location of the unallocated script blocks are merely proposals based on the current state of planning. The size and location of a script may change during final allocation of the script.

NOTE: As far as is possible, half-row (128) and four-row (1024) boundaries are observed in planning.

Some scripts have been investigated and rejected as unsuitable for encoding at the present state of knowledge about them.

- [Phaistos](#)
- [Proto-Sinaitic](#)

For several scripts there is not enough data to make much of a guess as to where they might go:

- Jiagu (Bone and Shell) script
- Sidetic
- Tamil Granta (probably extension of Tamil)
- Tartaria (Romanian ideographs)

Plane 1 is tentatively mapped out to the following zones.

```
00010000-000102FF Aegean scripts
00010300-000107FF Alphabetic and syllabic LTR scripts
00010800-00010FFF Alphabetic and syllabic RTL scripts
00011000-000117FF Brahmic scripts
00011800-00011FFF African and other syllabic scripts
00012000-000127FF Scripts for invented languages
00012800-00012DFF Cuneiform and other Near Eastern scripts
00012E00-000133FF Undeciphered scripts
00013400-00013FFF North American ideographs and pictograms
00014000-00016BFF Egyptian and Mayan hieroglyphs
00016C00-00016FFF Sumerian pictograms
00017000-0001B3FF Large Asian scripts
0001B400-0001CFFF unassigned
0001D000-0001FFFF Notational systems
```

This document is being maintained and updated as a service to ISO/IEC JTC1/SC2/WG2 and the Unicode Technical Committee. Versions formally submitted to WG2 contain a document number in the header. The most recent WG2 document is available on the WG2 website, as [N2214](#).
