JTC1/SC2 (Committee on Coded Character Sets)

Subject: Comments on SC2 N3639 (Merged ISO/IEC 10646 WD)

Date: 2002-11-18

NB : KATS

1. Although we cannot see the relevant portion of the merged ISO/IEC 10646, based on the current ISO/IEC 10646-1:2000, we have two comments as shown in 2 below.

2. Two comments (based on the current ISO/IEC 10646-1:2000)

2.1 For example, we have TWO tables named Table 98 with different table names

- p. 216, Table 98 - Row AC: Hangul Syllables
- p. 217, Table 98 - Row AC-AD: Hangul Syllables
- The table on p. 217 should be renumbered as Table 99.

Our request:

- There are 64 tables for Hangul syllables.
- Currently, numbers for Hangul tables run from 98 to 129 (pp. 216 ~ 279)
- These table numbers must be renumbered so that table numbers run from 98 to 161.

2.2 Fonts for Hangul letters from U+11A8 to U+11F9 should be changed.

- Currently the Hangul syllable-final letters U+11A8 to U+11F9 are "incorrectly" printed in syllable-initial letters.
- The letters were printed correctly in the first edition (1993); however, in the second edition, somehow fonts were incorrectly changed.
