

INCITS/L2/11-199

ISO/IEC JTC1/SC2/WG2 N4058

Date: May 13, 2011

Title: Comment on ISO/IEC 10646:2012 3rd edition – Request for U-Source

Source: U.S. National Body (INCITS/L2)

Action: Forward to INCITS

For consideration by SC 2/WG2 at the Helsinki meeting, June 6-10, 2011.

The U.S. National Body would like to ensure that every compatibility and unified CJK ideograph in ISO/IEC FCD ISO/IEC 10646:2012 3rd edition has at least one normative source clearly identified.

Because of this, the U.S. National Body requests that a U source be added wherever there are currently no source references provided.

The U source as recorded in UTR #45 preserves historical information on former sources in earlier editions of 10646. Therefore the USNB believes that references to such a U source should suffice for preserving history of earlier mistaken source references.
