WG2 N4343-ANSI

1	2	(3)	4	5	(6)	(7)
MB ¹	Clause No./ Subclause No./ Annex (e.g. 3.1)	Paragraph/ Figure/Table/ Note (e.g. Table 1)	Type of com- ment ²	Comment (justification for change) by the MB	Proposed change by the MB	Secretariat observations on each comment submitted
US		Latin Extended-D	te.1	Justification for the request to remove this character is contained in WG2 N3678. A viable alternative to encoding a separate letter middle dot, for the purposes cited by the original proposal, would be to use the already encoded modifier letter, U+02D1 MODIFIER LETTER HALF TRIANGULAR COLON or U+00B7 MIDDLE DOT.	The U.S. requests the removal of U+A78F LATIN LETTER MIDDLE DOT. We reiterate that this character is unnecessary and is a damaging duplication for the standard and should be removed from the amendment. If te.1., te.4., te.5. and te.6 are accommodated, the USNB will change its vote to approve.	
US		Old Italic	te.2	The proposal has demonstrated that Rhetic can amply be covered by the Old Italic script.	The U.S. requests the addition of U+1032F OLD ITALIC LETTER TTE, as proposed in WG2 N4046.	
US		Pahawh Hmong	te.3	The evidence provided for the Pahawh Hmong clan logographs in WG2 N4298 is not consistent as to the order of the characters or their glyphs.	The U.S. requests the proposer of WG2 N4298 to provide an indication that the glyphs and order of the Pahawh Hmong clan logographs in PDAM 2.2 are definitive.	
US		Miscellaneous Symbols and Arrows	te.4	The characters U+2B74 and U+2B75 do not clearly complete a set and have no independent demonstration of use or need for use.	The U.S. requests the removal of 2 characters: U+2B74 LEFT RIGHT TRIANGLE-HEADED ARROW TO BAR U+2B75 UP DOWN TRIANGLE-HEADED ARROW TO BAR. If te.1., te.4., te.5. and te.6 are accommodated, the USNB will change its vote to approve.	
US		Miscellaneous Symbols and Arrows	te.5	Unifications and changes to glyphs and names of Webdings characters in this block in PDAM 2.2 imply a change in the interpretation of particular pictographic symbols, which do not properly reflect the original symbols.	The U.S. requests changes to the glyphs, names, and characters as documented in WG2 N4319. If te.1., te.4., te.5. and te.6 are accommodated, the USNB will change its vote to approve.	
US		Transport and Map Symbols	te.6	Unifications and changes to glyphs and names of Webdings characters in this block in PDAM 2.2 imply a change in the interpretation of particular pictographic symbols, which do not properly reflect the original symbols.	The U.S. requests changes to the glyphs, names, and characters as documented in WG2 N4319. If te.1., te.4., te.5. and te.6 are accommodated, the USNB will change its vote to approve.	

1 **MB** = Member body (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

2 **Type of comment:** **ge** = general **te** = technical **ed** = editorial

NOTE Columns 1, 2, 4, 5 are compulsory.

US		Miscellaneous Symbols and Pictographs	ed. 1	The glyph for U+1F374 FORK AND KNIFE should just show a fork and knife.	Revert the glyph to that shown in PDAM 2.1 (fork and knife, with no plate).	
US		Currency Symbols	ed. 2.	The glyph should be replaced with a shape that more faithfully reflects the manuscript sources.	Replace the glyph for U+20BB MARK SIGN with the following:
