TITLE:	Status of encoding of Oracle Bone scripts
SOURCE:	TCA
REFERENCE:	
STATUS:	For your information
ACTION:	
DISTRIBUTION:	ISO/IEC JTC1/SC2/WG2
MEDIUM:	Electronic
NO. OF PAGES:	1
Appendix	None

Old Hanzi Meeting concerning Oracle Bone Scripts had been proceeded since IRG 22<sup>th</sup> to IRG 38<sup>th</sup>. China, Japan, and TCA participated in the encoding activities; include collection, comparison and ordering of those Oracle Bone Scripts. Base on IRG N1876 (WG2 N4357 document), the Principles and References, accomplished two rounds for reviewing all Oracle Bone Scripts.

Based on the outputs from the Old Hanzi experts group, TCA and China are working together to make TTF fonts of Oracle Bone Scripts. Two thousands of Oracle Bone Scripts TTF fonts will be completed this year, and the next 5,000 TTF fonts will be completed next year. There are expected that all TTF fonts will be complete in the end of 2014, and then submitted to WG2 for encoding. If any response or comment please sends to Wei, Lin-Mei (Selena), and the email: selena@cmex.org.tw
